

# Material Safety Datasheet

## GENERAL PURPOSE POLYSTYRENE

### 1) Identification of the Substance / Preparation & company / Undertaking :

#### 1.1) Identification of the Substance / Preparation :

**Product** : General Purpose Polystyrene  
**Synonyms** : "Supreme" General Purpose Polystyrene (GPPS)  
**Product Grades** : SC201LV / SC201EF / SC202EC / SC206 / SC203EL

**Chemical Family** : Polystyrene thermoplastics polymer

#### 1.2) Identification of the Company / Undertaking:

**Contact** : Supreme Petrochem Ltd,  
 5<sup>th</sup> floor, Bldg No.11, 167 Guru Hargovindji Marg  
 Andheri – Ghatkopar Link Road, Chakala,  
 Andheri (E), Mumbai – 400093.  
 Tel: 91-22-6709 1900

**E-mail** : [css@spl.co.in](mailto:css@spl.co.in)

**Web Site** : [www.supremepetrochem.com](http://www.supremepetrochem.com)

**1.3) Emergency Calls** : 0091 22 6709 1900

### 2) Hazard Identification:

#### 2.1) Critical Hazards to Man:

**General** : Normal handling with general ventilation would not expose operating personnel to safety and health hazards.

**Eye Contact** : May cause mechanical irritation.

**Inhalation** : Dust may cause mechanical irritation. Under normal industrial use there is no exposure to dust or vapour above health hazard limits.

**Skin Contact** : None known

**Ingestion** : Biologically inert. Extremely unlikely route of entry.

**Other effects** : None

#### 2.2) Critical Hazards to Environment :

The substance / preparation is stable under normal conditions of storage and use. It is not hazardous to the environment in its normal state.

### 3) Composition / Information on Ingredients:

| Components  | CAS Registry No. | Content (w/w) |
|-------------|------------------|---------------|
| Polystyrene | 9003-53-6        | 94 - 100 %    |

### 4) First Aid Measures :

#### Symptoms, Effects, Indications for Immediate Action :

**Eye Contact** : In case of eye contact, wash them with abundant water, without scrubbing with the hands. In case of contact lenses use, take them out immediately. Consult a physician if some irritation persists.

**Inhalation** : Avoid breathing dust, process fumes and vapours, because they can cause irritation in throat and respiratory tract. In case of inhalation, keep the person in a well-ventilated room, and call a physician if breathing difficulties appear.

**Skin Contact** : Wash the contaminated zone with soap and water in case of process vapours contact. In case of contact with molten resin, cool the skin immediately with water and consult a physician. Contact with process fumes / vapours can produce skin irritation.

**Ingestion** : The ingestion is very improbable due to pellet shape. This material does not present a significant degree of toxicity. If considerable material quantities are swallowed, ask for medical assistance.

### 5) Fire Fighting Measures :

**Flash point and Method used** : N/A

**Flammability limits in Air** : N/A

**Auto Ignition Temperature** : N/A

**Unusual Fire and Explosion** : When involved in a fire, burns with sooty flame and Hazards releases fumes made up of water, carbon dioxide, carbon monoxide (when starved of oxygen) and other combustion products. Overheating / pyrolysis evolves vapours made up of monomers, low molecular weight polymers and other oxidation products.

**Extinguishing Media** : Water fog, Carbon dioxide and dry chemical

**Special Fire Fighting Instructions** : Use approved self contained breathing apparatus, respirator and approved personal protective clothing (like helmet, goggles, fire resistant gloves, boots, etc.).

### 6) Spillage, Accidental Release Measures :

#### 6.1) Personal Precautions:

Do not walk on pellets to avoid slipping.

#### 6.2) Environmental Precautions:

Keep away from drains.

#### 6.3) Methods for Cleaning:

Collect mechanically. Reuse, if possible or dispose off as required by national and local regulations.

### 7) Handling and Storage :

While the handling of Supreme Polystyrene pellets generally does not present unusual problems, a dust can be formed under some circumstances. Mechanical handling equipments can cause formation of dusts. Maintain good housekeeping. Store in a cool and dry place in a shade away from sunlight and heat.

The packing used by Supreme Petrochem Ltd. is not UV-stabilized and hence, should not be exposed to sunlight. This product contains no fire retardant additive. It is COMBUSTIBLE and should be protected from flame and other high heat sources. Take precautionary measures against static discharges; earth all storage tanks (silos). For more information, contact Supreme Petrochem Ltd. (0091 22 6709 1900)

### 8) Exposure Controls/Personal Protection :

#### Personal Protective Equipment :

**Respiratory Protection** : Not required under normal operating conditions. Under a typical conditions approved respirators should be used. ( Refer also section 5 )

**Skin Protection** : None under normal conditions, but use gloves if seemed necessary.

**Eye Protection** : ANSI approved safety glasses with side shields. Goggles would be required for heavy dusting.

**General Control Measures** : Use adequate ventilation and provide electrostatic bonding and grounding of equipment to prevent dust explosion.

### 9) Physical and Chemical Properties :

|   |                                     |  |
|---|-------------------------------------|--|
| <b>Form</b> Solid Pellets                     | <b>Vapour pressure</b>              | N/A  |
| <b>Colour</b> Transparent                     | <b>Volatiles (By Volume)</b>        | N/A  |
| <b>Odour</b> Faint                            | <b>Vapour Density (air = 1)</b>     | N/A  |
| <b>Boiling point</b> N/A                      | <b>Evaporation Rate</b>             | None   |
| <b>Melting point</b> Softens at 79°C to 107°C | <b>Solubility in water</b>          | Insoluble  |
| <b>Specific gravity (water = 1)</b> 1.03-1.05 | <b>Solubility in other solvents</b> | Soluble in chlorinated solvents, aromatic solvents and ketones |

### 10) Stability and Reactivity :

**Stability (Conditions to avoid)** : Stable and inert in normal handling and storage conditions.

**Incompatibility (Materials to avoid)** : Avoid processing of material above 300°C. Avoid contact with solvents and strong oxidizing agents.

**Hazardous Decomposition** : Carbon monoxide, Carbon dioxide, Carbon, Water

**Hazardous Polymerization** : None

### 11) Toxicological Information :

Specific information on the preparation is not available.

#### 11.1) Dangerous Effects from Exposure to the Preparation:

The product's dusts may cause irritation to the eyes and/or respiratory organs.

#### 11.2) Delayed and Immediate Effects from Short and Long Term Exposure:

Carcinogenicity, mutagenicity, reproductive toxicity : no evidence of these effects has been reported for the preparation.

### 12) Ecological Information :

**Environmental Hazard** : Sewer / waterway obstruction, Fish may eat pellets and obstruct their digestive tracts.

**Spill, leak and release procedures** : Stop leak, contain spill, obstruct exit to sewers, waterways, and sources of ignition. Collect into containers.

**Reportable quantity** : None (Not regulated)

### 13) Disposal Considerations :

#### 13.1) Appropriate Methods of Disposal :

Residues should be disposed off as required by national and local regulations.

#### 13.2) Recycling:

After suitable treatment (cleaning, grinding, etc.) the preparation can be safely re-used, as it is or mixed with fresh material, when this is compatible with the intended final application

#### 13.3) Incineration:

It must be done under approved conditions, possibly with energy recovery and only at suitable facilities equipped with a scrubber for the treatment of fumes before their release into the atmosphere.

#### 13.4) Land filling:

It should be avoided as far as possible. If unavoidable, use approved landfill silos.

### 14) Transport Information :

**Rail & Road** : RID/ADR-Class: free, UN-No.: free

**Air** : IATA-Class: free, UN No. : free

**Sea** : IMDG-Class: free, UN-No.: free, Marine pollution: No

### 15) Regulatory Information :

The preparation is not regulated by D.O.T. The preparation is not Hazardous by OSHA Hazardous Communication Standard 29 CFR 1910.1200. The preparation is on the TSCA inventory. The preparation is not subject to specific CERLA reporting requirements. The preparation is not subject to SARA 313 reporting requirements. The preparation is not subject to California Safe Drinking Water and Toxic Enforcement Act (Proposition 65) reporting. The preparation is not dangerous according to the applicable EC regulation. Label not required. All substances contained in this product are listed on the Canadian Domestic Substances List (DSL) or are not required to be listed.

### 16) Other Information :

**Packing quantity available in:** 25/850/900/950/1000 Kgs

**Hazard Rating** : 0=Minimal, 1=Slight, 2=Moderate, 3=Serious, 4=Severe

**Health** : 0, **Fire** : 1, **Reactivity** : 0

**Note** : To the best of our knowledge the information contained in this Material Safety Data Sheet is accurate. However, neither Supreme Petrochem Limited nor any of its Distributors makes any warranty, expressed or implied, or accepts any liability in connection with this information or its use.

## SUPREME PETROCHEM LTD

5<sup>th</sup> Floor, Bldg No. 11, 167 Guru Hargovindji Marg,

Andheri- Ghatkopar Link Road,

Chakala, Andheri(E), Mumbai-400093
