

BONABOOST - TECHNICAL DATA SHEET

Description:

Microbiological stimulant enriched with microorganisms and trace elements. Promotes immunity, growth and flowering of plants, increases the mass of leaves and the number of fruits.

Application:

Three times foliar (leaf) treatment during the growing season.
Universal Agro-dose: 1.0 l. dilute the drug in 300.0 l. water on HA.

Seed treatment before sowing.

Universal Agro-dose: 1.0 l. dilute the drug in 10.0 l. water per 1 ton of seeds.

Ingredients:

Leonardite extract, Microorganisms, Trace elements.

Aggregate form:

Liquid.

Compound:

PARAMETERS	UNIT OF MEASUREMENTS (%)
Organic mass	10.00
Nitrogen (N)	1.20
Phosphorus (P2O5)	0.01
Potassium (K2O)	5.00
Calcium (CaO)	0.10
Sulfur (S)	0.10
Magnesium (MgO)	0.05
Manganese (Mn)	0.007
Bor (B)	0.006
Iron (Fe)	0.06
Zinc (Zn)	0.015
Copper (Cu)	0.002
Molybdenum (Mo)	0.005
PH	7.00-8.50

Microorganisms:

NAME	CFU/ml	MANUFACTURED PRODUCTS
bacillus Megaterium	10*10 ¹⁰	Exoenzymes, amylases, proteinases and vitamins (B12), (B2) to support the acceleration of biological activity and plant immunity.
Pseudomonas Cedrina	10*10 ¹⁰	Heteroauxin (indoleacetic acid), a phytohormone that stimulates plant growth.

Complies with EU Organic Law Reg. 2018/848. Compiled in accordance with Regulation EC 1272/2008 and REACH Regulation no. 1907/2006.
